## Enjoy Yourselves

### Stir Pot for Bishops Game

Excitement is brewing tonight! As is the custom at Home Coming weekend, the Mac Aggies are playing host to Bishop's in their first league game of the season tomorrow. To start the pot brewing tonight, there will be a torchlight parade from the main building to the football field at 7 o'clock, where an effigy of a Bishop's player will be burned. After everyone has cleared the field, the varsity football, soccer, and harrier teams will be introduced.

Then comes the most ex-

citing event of the evening, when the Senior Home Ec's, who captured the championship in their Sophomore year, battle against the Sophomore Home Ec's in a grueling, devastating game of tackle football. Each teams' cheerleaders will be on hand to lead you in their cheers. We hope everyone will come out and join in the activities which will later be followed by a dance in the coffee shop.

6:45 - Everyone meets in front of the main building where Mac cheerleaders will lead cheers. Cattails for the

torchlight parade will be handed out.

7:00 - Light cattails and begin parade to burn Bishop's player in effigy.

7:15 - Cheerleaders will set fire to the effigy amidst college cheers.

7:30 - Introduction of the football and soccer teams and their respective coaches, Mr. Pugh and Mr. Field.

This will be followed immediately by the football game between H. Ec. '65 seniors and H. Ec. '67 sophomores.

A dance will follow the game.

After a short year of absence the 'grads' have returned to Mac. This year, as they converge on the little college town, they will find the campus a turmoil of activity, with elections today, followed by a Pep Rally tonight and the big football game tomorrow. There will also be a soccer game tomorrow, so there will be lots of sports to entertain the more sports-minded of the returnees.

A record hop will conclude today's activities. This will be an opportunity for Pep Rally participants and spectators to enjoy a bit of musical entertainment.

Our "favourite rivals", Bishops, will match our aggies on the football field. This is the big game of the year so

come on out, gang, and cheer our team to victory!

While our football team match their skill with Bishops, our soccer team will be challenging the team from Carleton. The Carleton Harrier team, along with Bishops, will also be on hand to compete against our runners.

You will see some unexpected colour and action at the football field. A plan has been underway this week to introduce a new feature to our homecoming weekend. Now that we have aroused your curiosity, we know that you will be on hand to display some good old Mac spirit and join the voices of the 'grads' as we encourage our athletics to make this a weekend to really remember.

### Council Aims Announced

The first Student Society meeting of the year was held on Sept. 28 at 4 o'clock in the auditorium. In contrast to the last meeting, there was a good turnout among the students, indicating of more interest in council activity. Bob Robson, president of the Students' Council acted as chairman.

The Agr. Rep. Barry Stephen gave a report on the progress of the Macdonald chapter of the Student Union and made mention of a survey concerning the union that will be held within the next few weeks. He stressed the importance of filling out this form with care as the Student

Union concerns each student. President Bob Robson outlined the aims of the council for this year. They included:

- (1) keeping students better informed of council activity.
- (2) closer connection with McGill University.
- (3) seeking student advice on council activities through the formation of a class presidents' committee.

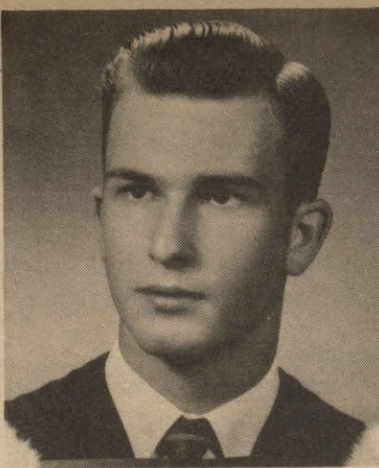

- (4) better representation on council for education students.

Next came the main purpose of the meeting; the nomination of candidates to fill the six vacant positions on the council. The meeting ended with a general discussion.

### Council Elections Today

The two candidates shown below made it the easy way: voted to positions by acclamation at the Students Society Meeting Monday were: Barry Stephen, president of Gold Key; and Darrel Wood, post-grad representative. Mr. Harry Harricharan and Mr. David Armstrong were also voted in by acclamation.

Shown on page three are the six worthy opponents who have battled their way through a hard campaign the past week. The campaigners themselves put on a good effort and have reached their day of reckoning.

DARREL WOOD

Whoop It Up

### Mac Sponsors Folk Festival

An inter-collegiate Folk Singing Festival will take place at Macdonald College on October 17th. It will be open to entries from Universities within a 500 mile radius of Montreal.

Two trophies, donated by Alan Mills, will be awarded - one for the best overall performance, and the other for the best Canadian Folk Song.

Participants will be given free room and board by the

Literary & Debating Society of Macdonald College, sponsor of the Folk Singing Festival.

Entries must consist of two songs or a 15 minute program performed by not more than four people.

The closing date for applications to participate in the Festival is Oct. 5th.

### Laval to Protest Queens Visit

TORONTO (CUP) Students at Laval University will demonstrate against the Queen when she visits Quebec Oct. 11.

Michel Letellier, Laval students' council president, said Monday (Sept. 14) Laval students will protest the Queen's visit no matter what steps are taken by the authorities.

He said the students will ask the authorities for permission to organize a march Oct. 11. But, he added, they

will not appear along the route of the Queen's cavalcade through Quebec City in an effort to avoid attracting extremist participants.

If the authorities refuse permission to march, they will demonstrate on the Laval campus, he said.

M. Letellier said Laval's students do not want to cause trouble, but they feel they must demonstrate they do not want any British ties.

### Cus Supports Flag 18 Years old Vote

CONGRESS SUPPORTS

FLAG, 18-YEAR-OLD VOTE

TORONTO (CUP) - The 28th congress of the Canadian Union of Students (CUS) has called for a distinctive Canadian flag and the vote for persons 18 to 20 years.

Meeting at York University, the congress passed a motion supporting the adoption of a distinctive Canadian flag other than the Union Jack and Red Ensign. The universities of New Brunswick and Moncton presented the motion.

At one point, the congress was divided on the politically loaded flag issue. Some delegates expressed opposition to the union taking a stand on a national issue on which political parties have already drawn battle lines.

A motion which contained a condemnation of the tactics employed in the House of Commons during the flag debate was defeated in commission on the strength of opposition to its partisan implications.

The flag motion was the fourth passed by a CUS congress in the past four years.

The motion endorsing the 18-year-old vote was moved by the universities of Ottawa and Saskatchewan, Regina campus.

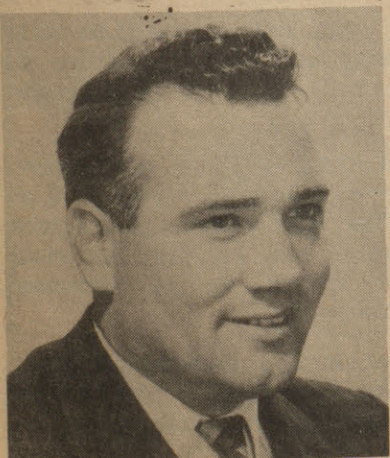

The University of Saskatchewan said lowering the voting age would make CUS a political force in Canada.

Both motions were passed on weighted votes. The weighted vote distributes votes to each CUS member according to the size of its student enrolment.

### Class of '68 Chooses Execs

The first meeting of the class of '68 Agriculture was held on Monday, Sept. 28th and the following were elected to the executive for the year:

President Barry Ellson  
Vice-Pres. Tony Grandone  
Sec.-Treas. Ted Brooks  
Royal Rep. Ayton Lennon  
M.A.A. Doug Marshall  
Community Chest Gary Coupland  
Mens' Res. Simon Barrère  
Comm. Allan Cruikshank  
Clan Rep.

Barry Stephens

## Intercollegiate Harrier Team Races On Saturday

This is probably the inter-collegiate sport which is not as highly recognized as the football and hockey teams, but the amount of work which goes into the training of a good Harrier team is equal to that of hockey or football.

The training schedule takes from 1 hour to 1 1/2 hours a day, which is spent exercising and running, sometimes as much as 5 miles a day. The running is done on the track, around the orchard and at the arboretum. This is a tough

schedule to carry every day and especially tough when the boys have no coach to urge them on.

The present team consists of three of last year's steady runners - Wesley Mason, Chuck Warner and John Boomgaardt. Other runners are Don Marcou, Chuck Maingon, Ronald Kittleson and Keith Fern. Keith Fern is a first year teacher and has had several year of experience of harrier racing in Ontario. His running ability and knowledge

of harrier running will give the team a great boost.

The convenor of the inter-collegiate running is Mike Kentish, who is not running himself but is lining up the races for the team. The first race of this season comes up tomorrow, Sat., Oct. 3rd, which will be a four mile run at the arboretum. Carlton University and, probably Bishop's University will be competing. These boys can use all the support they can get from students.

## Food For Thought

For some years there has been a line of thought which suggested that the organ was created for the need, and that

as the need died, the organ shrank to nothing. Today, most women don't nurse their children.

## Calling All Woodsmen

At least six woodsmen are needed to form a team to enter the intercollegiate Woodsmen's Competitions. The rules for these competitions are posted on the sports bulletin board in Brittain Hall. The

first competition will be held against U.N.B. on an approximate date of Oct. 24th. Bob Watson will coach the team this year. For more information contact Chuck Warner, Room 262.

## Interclass Football Rules Settled

The rules and regulations of the game were settled at the M.A.A. meeting on Monday night. A team will consist of eight players, five in the line and three others. The three centre linemen are not eligible to receive passes. Suspension of a player will result if he receives two roughness penalties. A suspended player cannot resume play until he has appeared before the M.A.A. (Men's Athletic Association).

The one hand touch system will be used instead of the flag system which was used last year. Games will be held between 12:30 and 1:20. Referees are needed - see Don Badger.

## What Is It?

According to the owner, third year engineering student, John Ionsen, it's a custom car which cost him an estimated \$650 to build in two summers. The car is driven by a 1956 Oldsmobile, 324 cu. in., stock motor.

The body is from a 1932 Ford Truck cap - channelled 6" which is bolted to a 1925 Model "A" frame - Z'7".

The wheel base is 87" with an Olds open rear end. The transmission is also an Olds

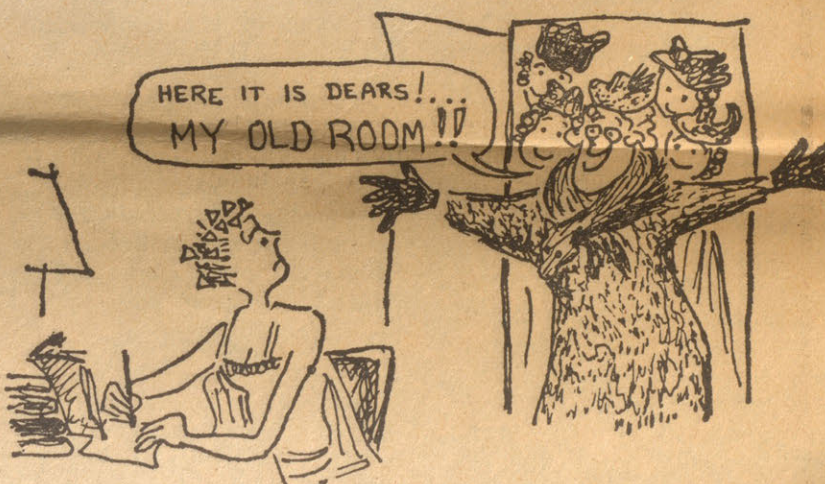

Hydro-matic transmission. Tires are regular 7:60 - 15" fronts and 8:00 - 15" rear. The steering is a modified Olds steering mechanism.

The front end has a 1938 axle and 1948 brake drums. The box on back is mahogany and houses the battery and gas tank and also small pieces of luggage.

What will it do? This is a secret between John and the Fuzz.

Note: It's not for sale.

## Why They Come Back

TO RECAPTURE YOUTH

## LIT and DEB notes

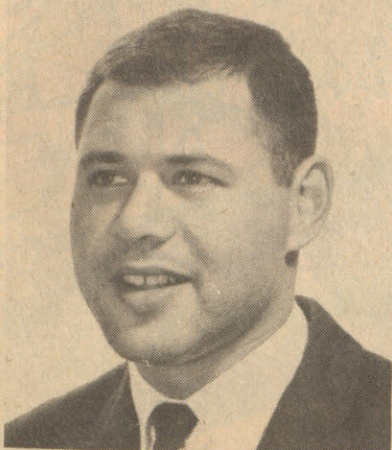

1. All class presidents have by now received a letter calling for the election of class representatives to the society. Their first meeting with the elective will be held on Tuesday, Oct. 6th at 6:30 in the council house. We hope at this time to allot certain responsibilities to these members.
2. On October 7 we are holding an elimination contest to choose an act to represent Macdonald at our Folk Singing Competition which will be held Oct. 17th. All you banjo pluckers start strummin'. Your act should include at least one Canadian number to make yourself eligible for this section of the competition. The trophies donated for the big event are on display in the cabinet to the left of the clock as you enter the main doors. On date of writing (Sept. 28) we have received our first entry with more expected soon. For any information on this event contact your class rep. or any member of the executive.
3. Each class should keep in mind that they will be called on to present a five minute skit Oct. 14th. Emcee for this event is Hans Bauer, a Mac grad and at present enrolled in the IG course.
4. Hugh Macdonald is busy planning a class play festival for us. We have extended competition over a two week period, the first night is Oct. 28th. This interclass activity requires each class to present a one act play. Individual trophies will be presented to the winning actors, actresses, and director for the first time this year.
5. Last but by no means least it is with pleasure that we announce that Mr. Bill McClellan of Agr. 3 has accepted the position of vice president giving us a full executive.
6. One purpose of Lit and Deb is to bring entertainment to our students; we cannot do this without student support. That includes you.

*Players*

The best-tasting filter cigarette

# THE CANDIDATES

**STEPHEN CASSELMAN**

Stephen David Casselman was born in Toronto in 1940, his entire pre-college education was at Forest Hill Collegiate in Toronto.

Besides being very active in all spheres of the school's sporting life, Steve was a member of the Student's Council for four consecutive years, from grade 9 to 12.

Steve graduated from grade 12 with second class honors and then left Canada for three years of travelling in Europe, where he acquired great experience in understanding the thinking and attitudes of a great many people. As a result, Steve is an extremely responsible individual whose affable personality enables him to discuss all problems with all people.

Realizing that education was of paramount importance Steve returned to grade 13 at the same school, graduated and came to Mac.

In his first year of college Steve made his mark early on the class of '67 and was elected class president, being re-elected unanimously this year.

**JANET ORR**

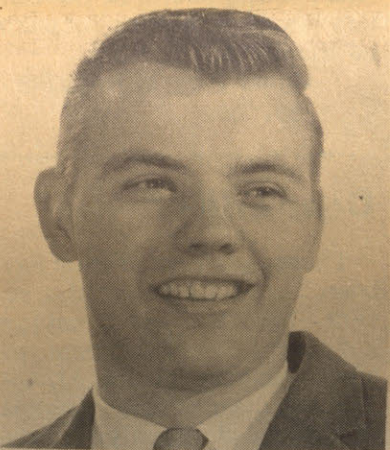

Janet Orr is in her sophomore year in a Diploma Education course. She is a member of the Gold Key Society and worked on various committees last year.

Grace Beach, a third year Home Economics student from Beachburg, Ontario, graduated from Grade 13 in 1962. While at high school she was a member of the Students' Council.

At Macdonald she has participated in all aspects of college life. In her first two years she worked on the Royal Tea and the Home Economics Club. She has been both a class representative in the club and presently sits on the executive of the Home Economics Club in the capacity of Secretary-Treasurer. In her second year she headed the food committee of the Carnival Ball.

**GRACE BEACH**

**JOHN GODFREYSON**

John Godfreyson, a Sophomore in the Degree-Education Course, came to us after spending 1962-63 at Bishops University, Lennoxville. During his Freshman Year here at Mac, John has been very instrumental in the life of the College.

John was the Freshman Representative on the STUDENT TEACHERS' SOCIETY Executive, and as such, played an important role in the Society's activities. In addition, he was the Director of Publicity for S.T.S.

As far as the Macdonald College Royal was concerned, John assisted in the construction and the assembling of the Frosh Teachers' Display Booth.

Although he was a resident in the village, John played Inter-Class Football in '63. This fall he tried out for the Mac Inter-Varsity Football Team, but was injured in the opening stages.

This represents a prosaic portrait of John Godfreyson in his Freshman year.

**RICK HOLLEY**

Rick comes from down east and entered the N.S.A.C. on a scholarship; during his first year there he played varsity soccer, participated in College Royal and led his class. During the spring elections he campaigned and was elected to the office of Secretary-Treasurer of our Student Council.

During his final year at the A.C. Rick carried out the duties of his office leaving the council with a bank balance of over \$4,000.00, was a member of the House Committee, chairman of the Biology booth for College Royal, took part in inter-class sports, won the Governor General's Medal, the Macdonald Scholarship, and was Valedictorian.

**PAT BELL**

During the last year, and in previous years, Pat Bell has entered various extracurricular student activities. She has always enjoyed playing intramural sports, especially volleyball and basketball. She has attended the men's football games, hockey games and basketball games and has found them exciting to watch. She is a ski enthusiast and in summer enjoys swimming. In addition, last year, she was able to get the "inside story" on Mac's highlight, the winter carnival, as a carnival princess. Through this she gained valuable experience and a personal interest in this event.

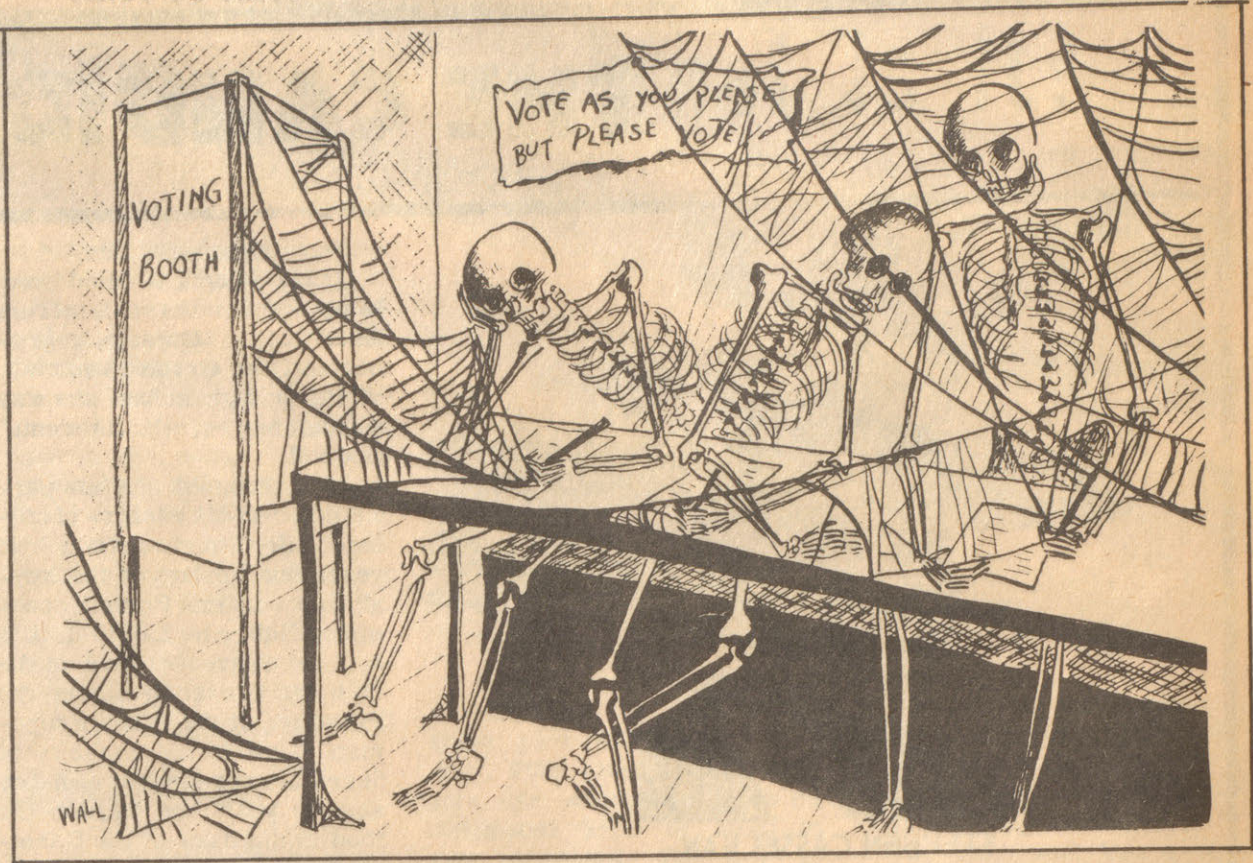

Editorial

Coming Back

This is a busy weekend at Mac, with something for everyone to do. The headlining event is the return from the hills of the old grads. We hope they will make themselves at home on their old campus and perhaps, let themselves go a little, as many of the "grads to be" will. This is a memorable event happening once a year, and for many not even that; however, this editorial is not written so much as a welcome to the grads, but as a reminder to the undergrads and postgrads. That reminder is to get out and vote. This is the only way that you can return to this college as a "grad" and hold up your head. If the right to vote is not used,

then what right have you to be proud of your college? You had nothing to do with "nothin'". True, administration is not in the hands of the students, but the administration has handed over many powers to the Student's Council, which must use these powers well. To this end we need a capable and conscientious Student's Council and those with the vote are the only ones to ensure this. This is as much a responsibility of the commuter as it is of the residents. No excuse is worth using, because there is no substitution for democracy or for a good Students Council. Enjoy the weekend with a clear conscience; get out and vote!

Folk Singing

In the past few years there has been a tremendous increase in the popularity of folk singing, and this is most certainly due to the increased number of this type of professional singers. Added to these are the large number of talented "amateurs" found throughout the country in universities and colleges who give an unquestioned surge to this popularity on the campus. This growth in popularity can be seen especially here at Macdonald, where on Oct. 17th, a Folk Festival, with entries from many other universities, will be held.

Most students will have observed that it is necessary for people to use their vocal chords, (especially, it would seem, when they are taking a shower). This desire to sing is especially urgent in those who find themselves as the sing-song leaders, and possibly on the stage during a folk song. The desire to sing could also be the reason for the increasingly large number of "amateur" and "professional" folk singers. This line of reasoning would appear both logical and deductive. But there is one underlying fact that seems to be forgotten and that is the basic fact that singers did not just spring up over night.

There have always been people who loved to sing and these people could always be found at one or two places; one being the choir loft of their choice and another the congregation, letting out all their steam on the "good ole hymns". Does it not seem funny that there has been a decline in church attendance just as the folk singing craze has reached its peak? This does not mean that folk singing has hurt church attendance, but it probably does mean that the people especially the youth, have found a substitution for that "good ole hymn sing" and perhaps this is the reason why folk singing is becoming such a favourite pastime. No one will dispute that folksinging is a good thing, but is it a good substitution?

STUDENT DRINKING:  
HOW SERIOUS?

With all the recent fuss about smoking regarding a person's health, etc., it is somewhat surprising that nothing has been mentioned about

drinking. "To intoxicate" is defined by the dictionary: to make drunk, to excite greatly to a point beyond self control, to elate to a frenzy. At first

Dear Editor

Macdonald College has a tradition which has long been adhered to: that the tables directly in front of the fireplace have been reserved for senior and junior students ONLY.

It has been noted by many that this tradition is no longer respected. This may be due, however, to ignorance rather than rebellion.

Many feel this unwritten law should be abolished. However those of us who have reached the realm of the chosen few believe we have earned the right.

Home Ecs and Aggies of '65, '66.

Dear Editor

Here's to the gal who comes to college with stars in her eyes, a smile on her face, a determination in her heart to accomplish something, and enough spare time to kick off her shoes occasionally in lieu of a good time.

If she can maintain herself this way for two to four years, I'd like to be the guy to shake her hand.

It's not unusual for mother's little girl to come home for Christmas with her hair cemented into a tall, streaked ball of misery, her face expertly covered with make-up, mascara, eye shadow, curled

eyelashes and an up-tilted nose that signifies "poise".

I think a smart gal will take a good look at the kind of guy who frequents this campus. She learned a long time ago that what looks like a live prize might be just a good job of shearing to fool the eye.

I'm a town guy myself, so I can complement the farmer: he's a down-to-earth guy who appreciates a down-to-earth gal. Strange, but most of the really popular girls around here are just that type. When you're up against Macdonald's ratio of co-eds every day is Sadie Hawkin's Day - so good luck gals!

Dear Editor

These words of protest have been necessitated by the recent high-handed behaviour and detrimental attitude towards sports of the M.A.A. This was, namely, the removal of a notice of a purely engraving nature which was designed to estimate the interest in Rugby on campus to see whether it was feasible to start a team. This notice was removed without the notification to any of the parties concerned. In itself this action may appear to be of small impor-

glance, the aforesaid might appear to be quite humorous but basically I feel it is pitiful. Drinking is becoming more common amongst teenagers as the years progress. The beginning of this habit, past-time or whatever else you would like to call it for many comes during their years at university. Can Dalhousie be fit into this generalization? Obviously 'yes' as there is drinking by the students here and several who have never touched a drop of liquor before will suddenly do so here as they begin to feel their independence.

DO DAL STUDENTS DRINK EXCESSIVELY?

The opinion of students on drinking vary tremendously. Some say, "there's far too much emphasis on it," while others almost dismiss the problem with "It's not as bad as it could be." I don't see the extreme emphasis as implied by the first statement but at the

tance. It does however epitomize the attitude and action by the M.A.A. sports on this campus, as given by the M.A.A. As members of this college contributing towards sports we are protesting in the strongest possible terms against the unimaginative and inflexible way in which this organization is controlled and run.

In the last year we have seen the disappearance from this campus, of tennis, shooting, swimming and athletics on the intercollegiate level. The excuse being given that the representation of the college in these sports was too poor to make them worthwhile. HOW FEEBLE! Surely the duty of the M.A.A. and its director is to actively boost, to their fullest capacity, interest in any sports at any level on this campus? Not to sit apathetically by expecting athletes to fall from the trees. However, not satisfied with sitting by, when someone does take the initiative to raise interest in an "irregular" sport, the M.A.A. is first to object on the most fickle and obscure grounds.

It seems that the M.A.A. has the idea that the fewer sports that are played and the more heavily they are financed, the more successful they will be. Thus, we have the huge expenditure on football and hockey, which is so disproportionate to what is spent on other sports. To what end? So that with the "blood" of the

dying sports the football helmets can be painted? Are they so successful that they should be regarded without peer or equal in the college? Be that as it may, but it would be well to remind the persons concerned that M.A.A. stands for MEN'S ATHELETICS ASSOCIATION not men's football and hockey association and we thus require that they have a change of heart and reconsider their situation. In doing so they should remember two things: 1. Sports are to be judged by the pleasure and interest gained from them by the participants and not by the size of the crowd on the touchline. 2. The M.A.A. is elected to represent us not to dictate to us.

Finally, we would like to express the strong belief that sports which have, to date, been played independently would be very willing to cooperate with M.A.A. if it was felt that the latter had the slightest genuine interest in them. Alas, if the leadership and interest in any sports at all, which should emanate from the M.A.A., was there, it would not have been necessary for as many sports to have "died" during the last year. It is our express hope that you members of this college, should get the proper representation that you deserve from them. Also from them the metaphorical kick in the behind to join into sports rather than wasting on the sidelines.

# Proposal to Change the Financial Structure of Clan MacDonald

## PROPOSAL TO CHANGE THE FINANCIAL STRUCTURE OF THE CLAN MACDONALD

The following is a proposal to change the financial structure of the Clan Macdonald. Under the present system, the students pay \$3.50 for the yearbook, while the Student's Council pays an addition - a \$1.25 to cover the present cost of publication (less advertising income) of \$4.75 per book.

It has been proposed that the annual sale of yearbooks be abolished, and that the Students' Activity fee (paid at registration) be increased by \$3.00. This sum would be turned over to the Clan to pay for the printing cost of the books. Under this system, each student would receive a yearbook, and thus the circulation would increase from 850 to 1600 books. The price of the books would drop to \$3.90 each, because of mass production. The students, as proposed above, would pay \$3.00 and the Students' Council would contribute \$0.90 toward each book.

This new system would have many advantages, some of

which are listed below:

- (1) The cost of printing the clan would decrease 22%.
- (2) The Clan would still be available at a reasonable price. Students at most other universities pay more than \$4.00 for their yearbooks.
- (3) This system, already adopted by numerous universities, (for example, Memorial University of Nfld., N.S.A.C., U.N.B., U. of Manitoba and the U. of Saskatchewan) would relieve the Students' Council of some monetary assistance. Further price increases of printer's costs at an estimated 3-5% annually could be budgeted more easily by the Clan and the Students' Council.
- (4) The new system would increase the efficiency of the students working for the Clan. The Clan Representatives, whose work in the past has not been efficient, due in some cases to a lack of interest, would not be necessary.
- (5) The new system would also end the annual sales campaign which must be carried out one week before the first deadline (October). The relief from the sales campaign (making pos-

ters for publicity, etc.) would take much of the strain off the Clan staff and would give them more time which could be devoted to the book rather than to superfluous paperwork.

(6) This system would greatly simplify the accounting of Clan monies (800 receipts less in the books). Also, a measure of security would be added to the treasury of the Students' Council. In case of a very low and disappointing sales, the unexpected deficit has, under the present system, to be paid by the Students' Council.

(7) It is known that the first year students are less likely to buy a clan that second year teachers and upperclass Agriculture and Home Economics students. The freshmen are naturally reluctant to buy a book only one month after their arrival at the college; consequently, they often don't buy a book at all.

However, practically all of the freshmen would like to have a book if they realized how much it would mean to them. Possibly the second year students would be more active in student affairs if they read the yearbook during the summer.

(8) The final advantage is that the Clan staff would know, in advance, exactly how many books would be sold, and thus they, as they cannot under the present system, could budget accordingly. The new system, which would be more efficient than the present one, is bound to result in a much better yearbook.

The outgoing and new Clan staff and outgoing Director of Publications, are unanimously in favour of this proposal, and urge you to consider it

seriously. It is beneficial in all respects to the students and the yearbook staff. All over Canada similar proposals have been made and are going to be made.

Our printers, Inter-Collegiate Press of Canada Ltd. in Winnipeg, estimate that 30% of their customers have yearbooks with compulsory subscription. They also maintain that compulsory subscription is increasing sharply -- let's introduce this proposal at Macdonald College in 1964 not 1970.

## QUOTES

"You must have long-range goals to keep you from being frustrated by short-range failures.

Charles C. Noble

"Taxes are like golf. You drive hard for the green and end up in the hole.

Anonymous

By special arrangement with "Alibi Ike," we present this summary of reasons why almost anything takes longer today than it used to: 1. I didn't know you were in a hurry for it. 2. That's not in my department. 3. Nobody told me to go ahead. 4. I'm waiting for an O.K. 5. That's really up to him, not me. 6. How could I know this was different? 7. When the boss comes back we'll have to ask him. 8. I really didn't think it was THAT important. 9. Things are piling up so, I couldn't get around to it. 10. It wasn't on my schedule. 11. Didn't I tell you? 12. I forget.

# WANTED

# A THEME for the '65 ROYAL

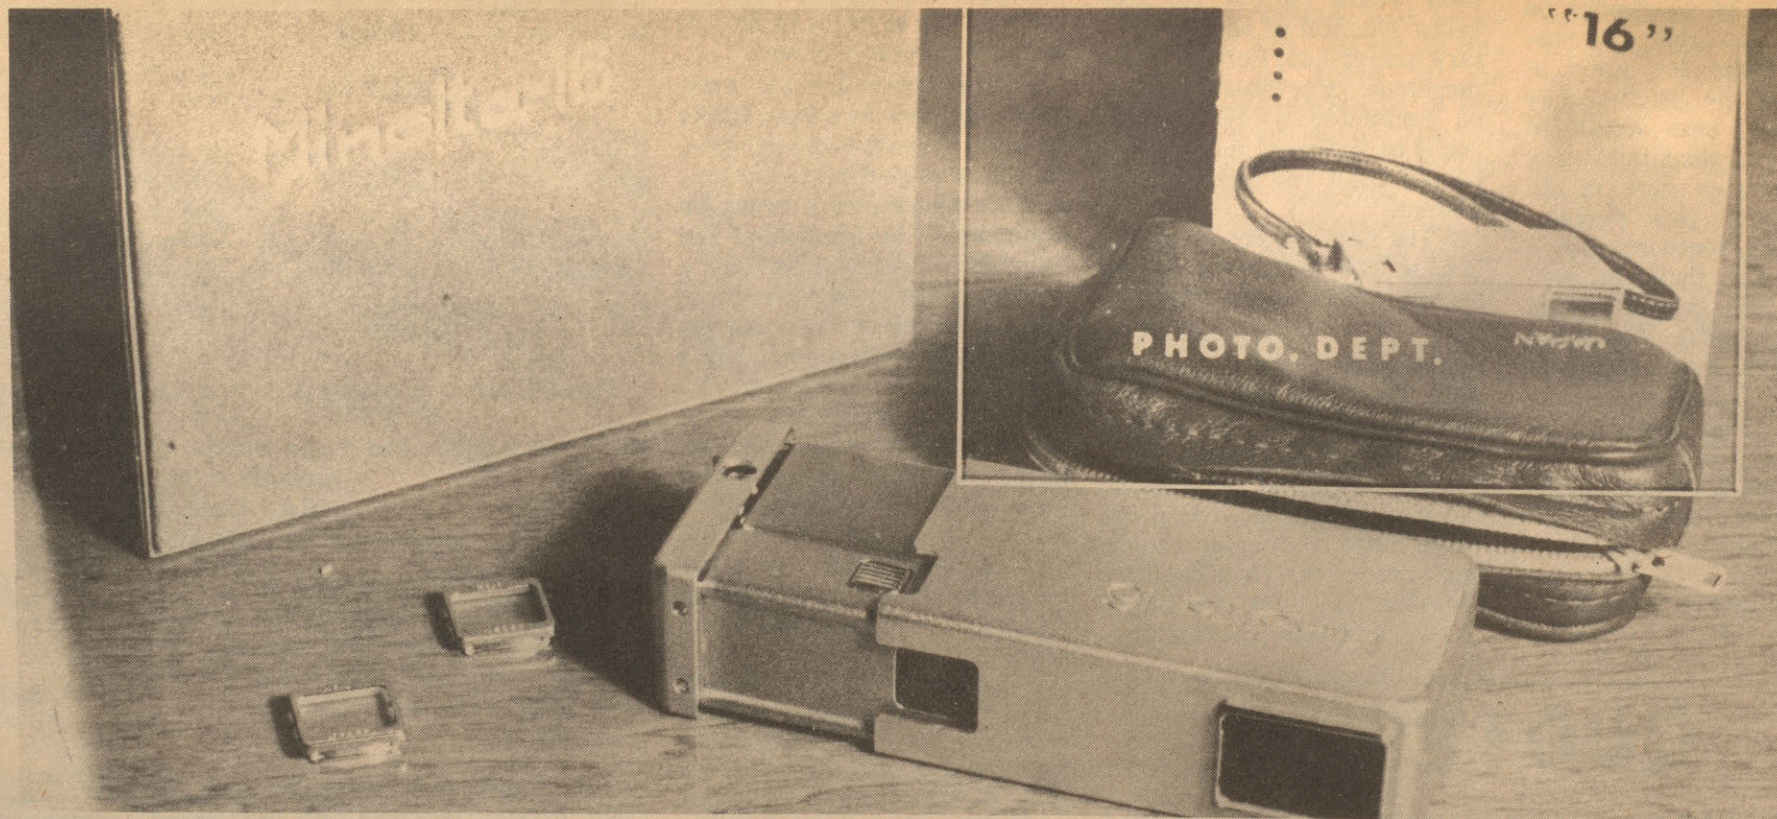

If you have an idea, submit it as soon as possible to :

Gerda Stobrich Box #32 Laird Hall

and win two free tickets to the Green and Gold

## WIN A MINOLTA '16' MINIATURE CAMERA

Actual Size As Shown

Have you some pictures that you have taken lately? Do you intend to take some soon? If so you should be interested in the following information.

The Failt-Ye Times is sponsoring a PHOTO CONTEST, here are the details:

Take one roll of pictures with any camera or film type.

Submit one roll of developed film along with one print of one of the negatives on the film.

The photo must be double size, about 3" by 3" or 3" by 5".

On the back of the photo print your Name and Address.

The contest starts today and ends on October 24th. at 10 p.m. All entries received after October 24th. will not be accepted.

All photos will be placed in a box and one will be drawn for the Minolta 16 Miniature Camera by Don Byers, Editor-in-Chief of the Failt-Ye Times.

Films received will be returned to you within two weeks after the termination of the contest.

The pictures on the film submitted must have some relation to Macdonald College and (or) it's students on or off campus, between September first and October the twenty-fourth.

All members of Photography and the Failt-Ye Times are ineligible to enter the contest.

Colour pictures and negatives may also be submitted.

You may enter more than once.

Place film and photo into an envelope and send it to:

Failt-Ye Times,

Box 334,

Macdonald College.

(No postage necessary if mailed from the Post Office in the Main Bldg.)

## Senior Wing Dings

To-night the Senior Girls football team, Senior Wing Dings as they are now known, are out for their second straight victory. Winning this game, they would go down in Macdonald College history as the only undefeated team.

Training camp opened two weeks ago, with almost all the veterans returning plus a couple rookies. The new rookie snap, Marg A.I. Hoey, is shaping up excellent, and we can look for great things from this hot prospect this year.

Our front line is made up of tough and strong Wing Dings. In tackle positions are Pam Pilkington and Jenny Dean accompanied with Jane Hall and Bobby Smith the guards. On the ends are two sure-footed players, Jackie Gourley and Wendy Ferris. With a front like these wing dingers put up, we shouldn't have any trouble with the opposition.

The Seniors may also boast of the "fastest" backfield on campus, starring our sexy Ev Sibbitt and shifty Janet Wilkey. If the going gets tough, we just send in the heavy artillery, Marilyn Kerr or Pat (Judy) Fisher. The person in charge of this powder puff power house is our own Jane (Nfld) Watson. With this quarterback the opposition won't know what to expect.

If you think our offense is tough our defense is tougher still. Our two rushing inside line backers Susy (Wong) Ward, and Patty O'Reilly would worry any team.

The predictions are that this is the team to watch to-night. They are out to win, so as a warning to those who might get in their way -- Look out!

## The Team To Watch

The Sophomore Girls have been practicing since September 21 for the Pep Rally on October 2. The girls are now showing a great deal of promise. Along with this they have a one handed secret weapon which will increase their strength to an even greater extent. The starting lineup will be Renée LaLonde, Betty

Sutherland, Pam Lane, Clarice Leckner, Donna Graham, Jayne Dobson, Karen Reid, Linda Cameron, Anne Lloyd Jones, Sue Downman and Susan Doak. Nancy Groom is playing Quarterback and is certainly very capable in this position. The coaches are impressed with the speed of both offensive and defensive lines and are very optimistic in their outlook for the game. It is hoped that as many students as possible will come out and support the girls who have put a great deal of time and effort into this game.

## Home Ec. Club Report

The first meeting of the Home Ec. Club was held on Thursday evening in the Laird Hall Reception Room. Miss H.R. Neilson, Director of the School of Household Sciences, and other members of the Home Economics Staff (Miss Devereaux, Dr. Farmer, Miss Honey, Miss Jenkins, Miss Findlay, Mrs. Fraser, Miss Raymond, and Miss Wren) were introduced to the 150 girls who attended the meeting.

Mrs. Fraser (formerly Miss Hollier) was asked to serve as the Club's staff advisor. After the business part of the meeting, the floor was opened to discussion of projects for the coming year. Speakers were suggested from the various fields of Home Economics (including dietetics, fashion and design, millinery schools, extension, etc.) Suggestions for an Indian Night, with an eye to helping in the Freedom From Hunger Campaign (the Mysore Project in India) were discussed, as were suggestions

for printing a cookbook of everyone's favourite recipes, and suggestions for a Sadie Hawkins Week party. The Club has also taken on the Royal Tea, held during College Royal in February.

Following the discussion, a short but informative film was enjoyed on "Parliamentary Procedure". After the film, refreshments were served by the Junior Home Ecs.

The meeting appeared to be successful both in the numbers of girls who attended and by the interest shown. The Club is the only one of its kind on campus where girls of many different backgrounds can get together to discuss ideas of common interest. It is proving to be especially useful for the Freshmen Home Ecs, who have very little contact with Home Economics in their first year.

For the October meeting, the date still to be announced, a speaker will give a short talk on the field of fashion.

## Women's Athletics

Women's activities are in full swing - under the supervision of the Physical Education Department and the W. A.A.

The success of these activities depends on the participation by the girls here at Macdonald so this year let's make our athletic program the biggest and best ever!

Summary of activities now underway:

Basketball Referee's course - This consists of 10 lessons every Tuesday and Thursday afternoons with Miss Nichol and Miss Walker as instructors.

Swimming - The Red Cross instructors course is presently underway under the supervision of Miss Nichol. Information concerning Synchronized swimming and the hours provided for the use of the pool may be obtained on the Stewart hall notice board.

Cheerleading - Three practices under the leadership of the last years cheerleaders

were held before the final tryout on Sept. 28th. Congratulations to the eight that make up this years squad and we know they will do a fine job as in past years of cheerleading on our teams.

Beginner's Golf - "learn to slam like Sam" every Tuesday and Thursday at 6:00. Miss Walker is the instructor and the necessary equipment is supplied.

Tennis - Intermediate and advanced tennis is held every Monday and Wednesday at 7:00. The Women's tennis team will be chosen from these players. Beginner's tennis is offered every Tuesday and Thursday at 4:30.

Soccer - The intercollegiate soccer team, coached by Miss Walker, began practices Sept. 22nd. Future practices have been scheduled for Tuesday and Thursday evenings at ten o'clock.

Check the bulletin board in Stewart Hall to keep up with the athletic scene on campus.

Heading no. 1.....yes.....no.....  
Heading no. 2.....yes.....no.....  
Suggestions.....

A box will be placed in the Foyer for your ideas.

continued from page 4

same time, the drinking shouldn't be "bad" at all. In general, I don't think it is at Dal.

A favourite question pertaining to the topic is - "Why does someone start to drink excessively?" The replies ranged as follows: 1. "I think the fault lies with the parents." 2. "To some it's a prestige symbol." 3. "You're free and you usually go after the things that are normally forbidden - on top of the fact that you want to go along with the crowd." Let's analyze these. Firstly, the blame can't always be shoved onto the parents although at times some might deserve it. Basically I think there is more truth in the second and third statements than many people would care to admit. But what about those that drink for the simple reason that they honestly like to? The opinionated persons above seem to have forgotten about them.

## Arch Rivals Meet for Homecoming

# Aggies Host Bishop's Gaitors

Macdonald Aggies will play host to their arch-rivals, Bishop's Gaitors, this Saturday which will probably be the biggest and the most important game of the season. Also, one of the largest crowds will be expected to attend the game due to homecoming weekend.

Last year Bishop's won both their games with Mac and went on to win the Ottawa-St. Lawrence Intercollegiate Football Championship. These two teams will play twice in the regular schedule again this year.

Bishop's opened their sea-

son with an exhibition game against N.D.G. Maple Leafs to whom they lost by a score of 27-20. Fullback Mike Sommerville scored twice and Brock Thompson came through with one. The Bishop's Gaitors have been somewhat weakened due to the loss of

several of last year's players such as quarterback John Milligan, Halfback Gard Evard and some key linemen. Bishop's sports editor, Dwight Douglas, reports that their team will be fighting hard for the retention of the championship even though they have lost several of their key players.

After approximately three weeks of practice and an exhibition game, Coach Pugh will stick his team this week for the game against Bishop's. The team this year has been built

around quarterback George Wall, the versatile veteran from last year.

As yet there are no major injuries to the players except for a cracked rib and a couple of pulled muscles. The new players added to the team have a good mixture of talents which include speed, effective tackling and hard hitting. The new talent along with the veteran's experience should combine to make a tough team to play against the '63-'64 champions, Bishop's Gaitors.

## Mac Looks Impressive

A good crowd of supporters saw the Mac Aggies Football team go down to defeat in a 33-31 bout with the Mount Royal Lions Saturday. The scoring was opened by the Aggies early in the first quarter. A pass and run play by George Wall and Alex Manson placed the Aggies in a scoring position. A pass to Rayner in the end zone set the score at 6-0. The Lions got their first score by trapping the Aggies in their own end zone on a kick-off. Mount Royal picked up seven points on a run by Steve Hart and a convert. In the second quarter Wall connected with Miller in the end zone to bring the score to 12-8. David Lees twice went up the center from the Lion's one yard line to bring the half time score to 25-8.

Mount Royal opened the scoring in the second half by going through Mac's defensive line from the 5. Wall and Rayner connected again for the Aggies to bring the score to 31-15. However this seemed to be the turning point of the game. Good blocking by the

Cut Down

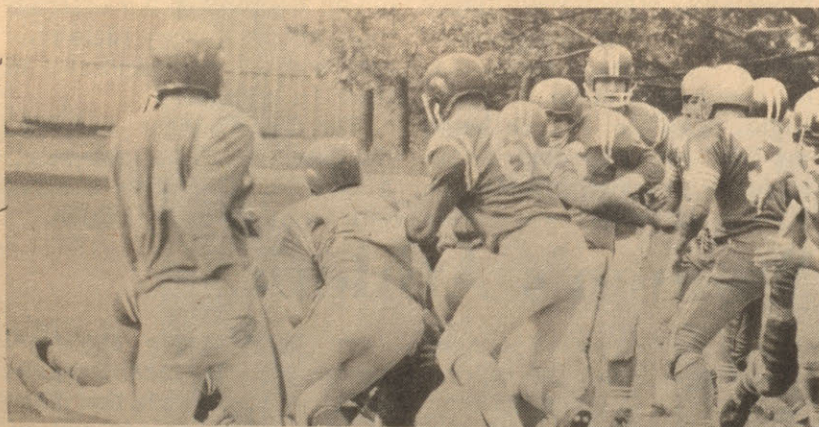

Lion offensive line opened up a hole for Schviker who went the distance for a T.D. Mount Royal then began to roll bringing the score up to 31-27 with less than three minutes to play. The Lions got the ball to the Mac 10 before loosing on a fumble, which were particularly frequent on the Lion team. The Aggies, however, could not move the ball and were forced to punt. The Lions with good blocking and well executed patterns got to within scoring distance. On a second down hand-off, Schviker went over to win the game for the Lions, 33-31.

Macdonald Aggies despite the heart-breaking last min-

ute touchdown, played a very good game. Particular mention is deserved by David Lees. Not only did he score two T.D.s but his running and quickness on recovering fumbles greatly helped the Aggies offensive. Rookies Miller and Manson showed a lot of potential on punt returning and as receivers. Manson's ball carrying also deserves note. Quarterback George Wall showed surprising speed on his running and his throwing was up to it's usual accuracy. Jerry Fielder showed a keen sense of football and several times brought the Lion quarterback down behind the line for losses.

Two plays many fans thought particularly outstanding were the one handed catch by Marchitello of the Lions on a kick-off by the Aggies, and the punt of Winston Ingalls who, although caught by a bad snap was still able to get a toe on the ball, much to the relief of Mac fans.

In all, the Aggies deserved to win the game. They have a good team and considering the number of rookies, they played an excellent game. They are a credit to Mr. Pugh's coaching.

Aggies' On Top

## Interclass Harrier Coming up

Most of the new students may be wondering about the meaning of the word harrier. A harrier is a cross country race which may be run over any type of terrain; hills, roads or through the woods. Harriers can be of any length but most are three to six miles in length.

The Interclass Harrier is approximately 2 1/2 miles long which starts from the oval, crosses the football field, down around the orchard, past the power house and back around to the oval. The actual route will be posted before the race which is October 6.

Any student finishing within a certain time limit earns

one point for his class and each point earned goes toward total points for the class shield, awarded at the end of the year.

Mike Kentish is the convenor for the Interclass Harrier so when it comes time to sign up for the race, let's have everybody sign up to run for his class.

## Soccer Team Battles U of M

Before a fair crowd the varsity soccer team put up a spirited display to comeback from a first half deficit of 5-0, to the somewhat more respectable final score - U. of M. 6 - Mac 2 - when they engaged the University of Montreal in an exhibition game last Saturday, Sept. 26th.

Honours in the first half must go to U. of M. whose forward line baffled the Mac defence as F. Dresdner found the target four times. S. Casarino rounded out the first half scoring for U. of M.

In this half Mac failed to score despite a few gallant attempts.

The second half saw Mac waking up as they outshot U. of M. and in the process tallied twice, first B. Szekelely and then Henry Garino. R. Del-Salvador got the final U. of M. goal as the visitors romped home with a 6-2 win.

For Mac notable performances came from Dave Fletcher who played a hard working game at centre half. Gene Terry was the other outstanding halfback as he constantly worried the opposition with his "never say die" attitude. The half backs generally played well. The forwards had a lean

first half but came into their own in the final half, as Szekelely and Garino hit the target. Trevor Walker and Jeff Dunn played good supporting roles.

However, we have a serious problem in the fullback positions. Our fullbacks lacked speed and general know-how. The score may have been much more one sided, had it not been for the business-like performance turned in by our veteran goalkeeper, Darrell Wood.

Yet this was an exhibition game and gave Coach Field a good look at his charges. Let's hope he can solve the problems facing him so that we can have a successful season.

Remember if you are interested, or have any experience at playing soccer, be sure to turn out to practice now - every afternoon at 4:30 PM on the soccer field. You may be able to fill an important position on the team.

The league opener is on Saturday, Oct. 3rd at 2:00 PM on the soccer field. Mac will play host to Carleton. Let's see the whole student body out there supporting the team.

It's your team, come out and cheer them on to victory. A win for them is a win for you.
